

Check Lamp Hours with a Manager G2

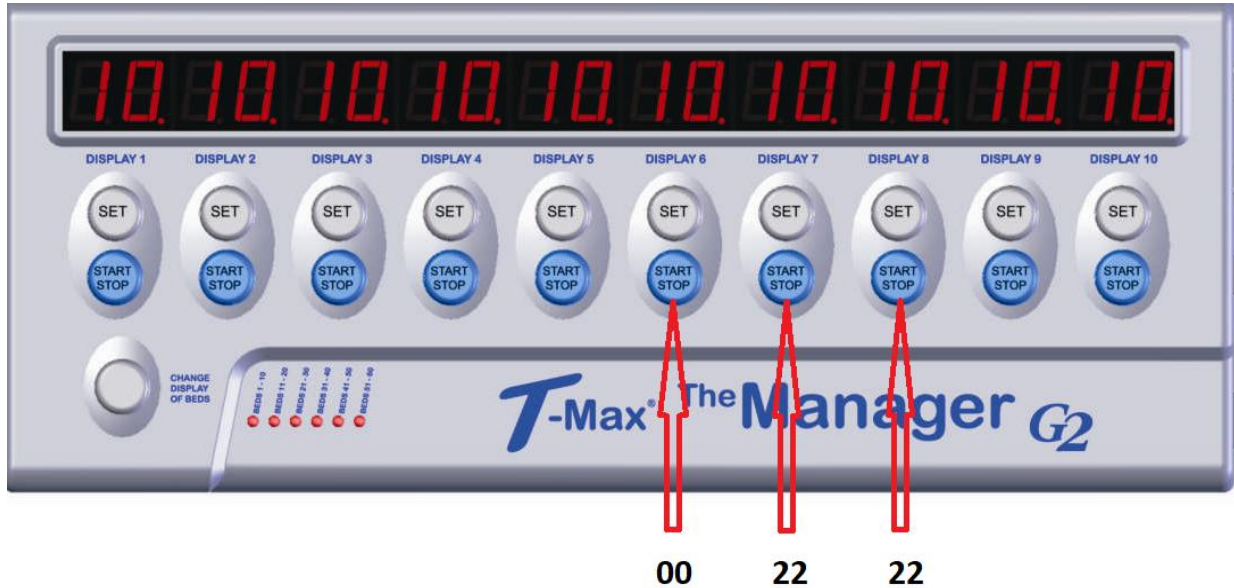

1. Apply power to the T-Max® Mgr G2 and wait until the T-Max® Mgr G2 stops scanning.

2. Press the Start/Stop Button under displays 1 and 10 on the T-Max® Mgr G2 at the same time until the displays change and show zeros in displays 6, 7 and 8. Release the Start/Stop Buttons.

3. Press the Set buttons under displays 6, 7 and 8 until the number for security level 2 is displayed.

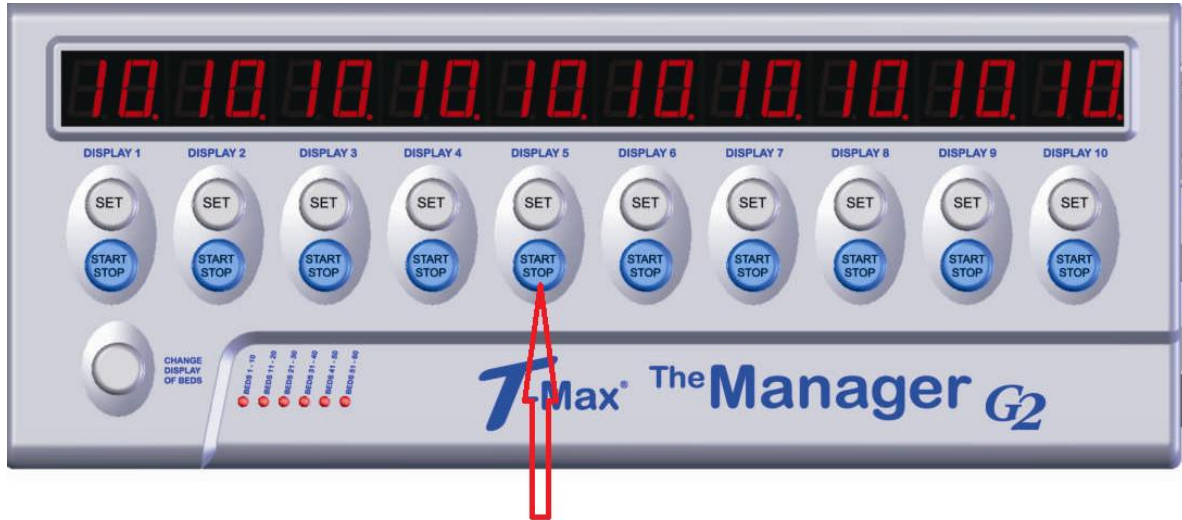

4. Set Password as shown.

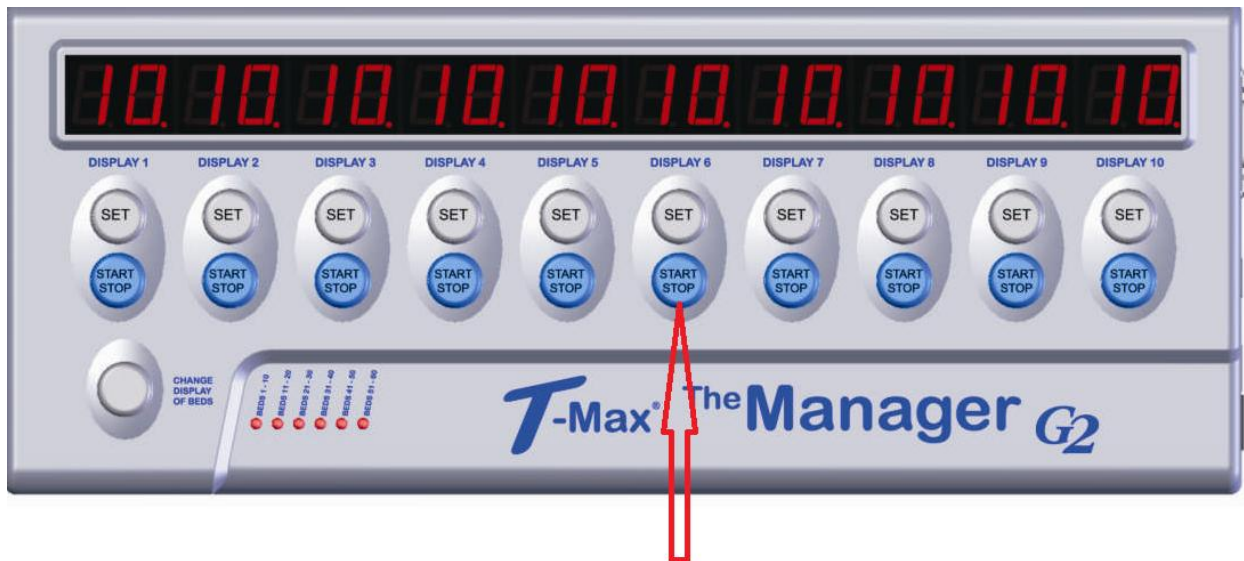

5. Once the security number is shown in displays 6, 7 and 8 press the Start/Stop button under display 1.

6. The displays will change to various numbers.

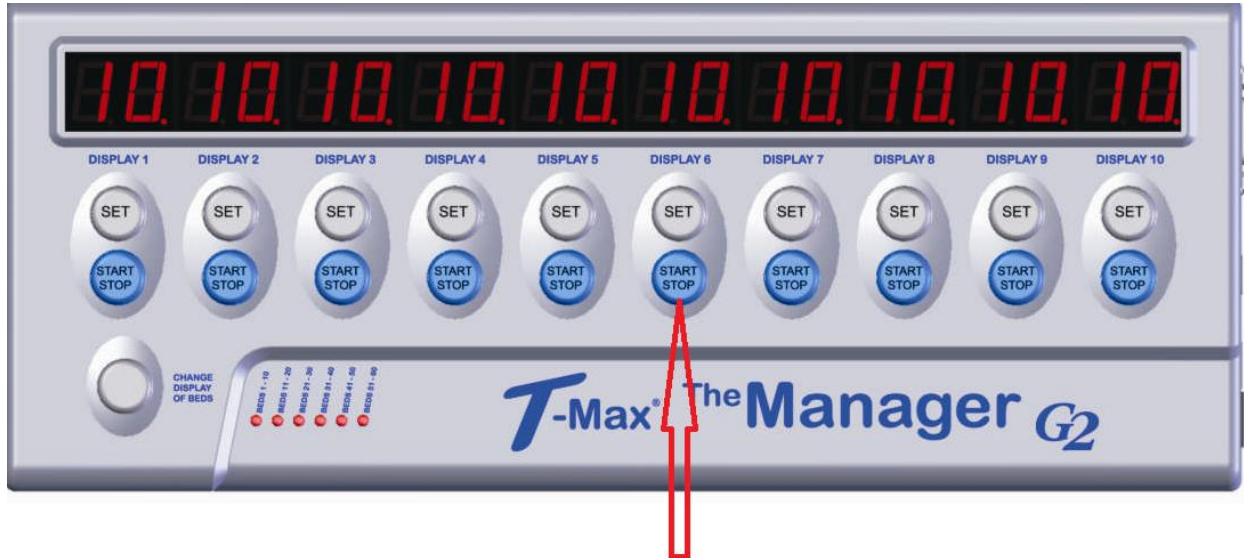

| Delay Time | Auto Start | Max Bed Number | Display Mode | Bed # to Change | Parameter# to Change | Parameter Value | Parameter Value | Max Slave | Manager Address |
|------------|------------|----------------|--------------|-----------------|----------------------|-----------------|-----------------|-----------|-----------------|
| 10 | 1 | 64 | 0 | 20 | 5 | 12 | 98 | 0 | 0 |
| DISPLAY 1 | DISPLAY 2 | DISPLAY 3 | DISPLAY 4 | DISPLAY 5 | DISPLAY 6 | DISPLAY 7 | DISPLAY 8 | Display 9 | Display 10 |

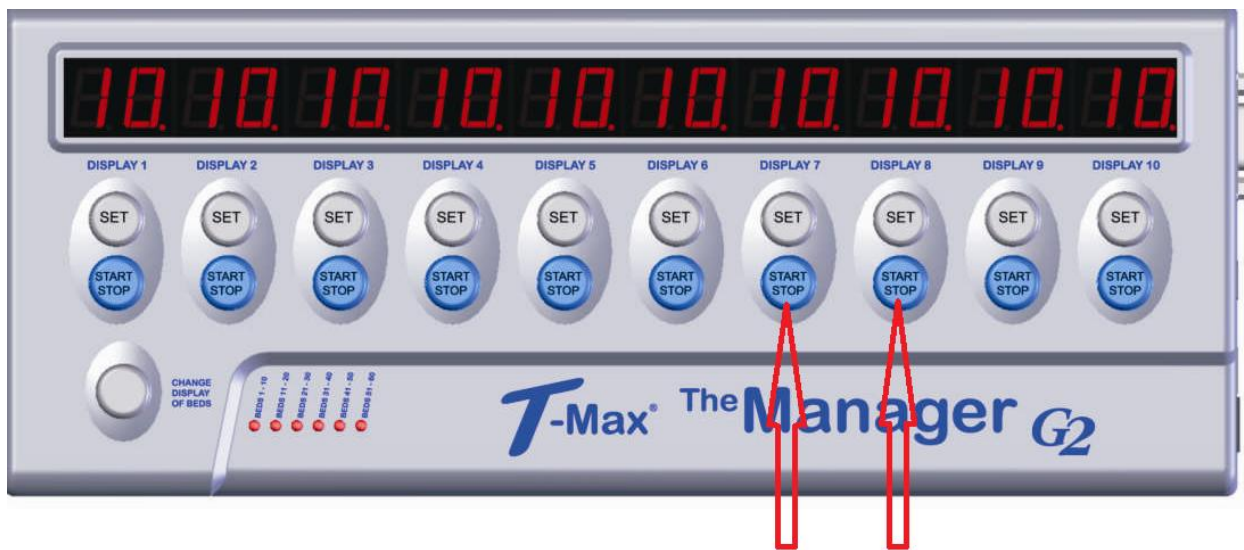

7. Set Display 5 with the SET button to the room number you want to check

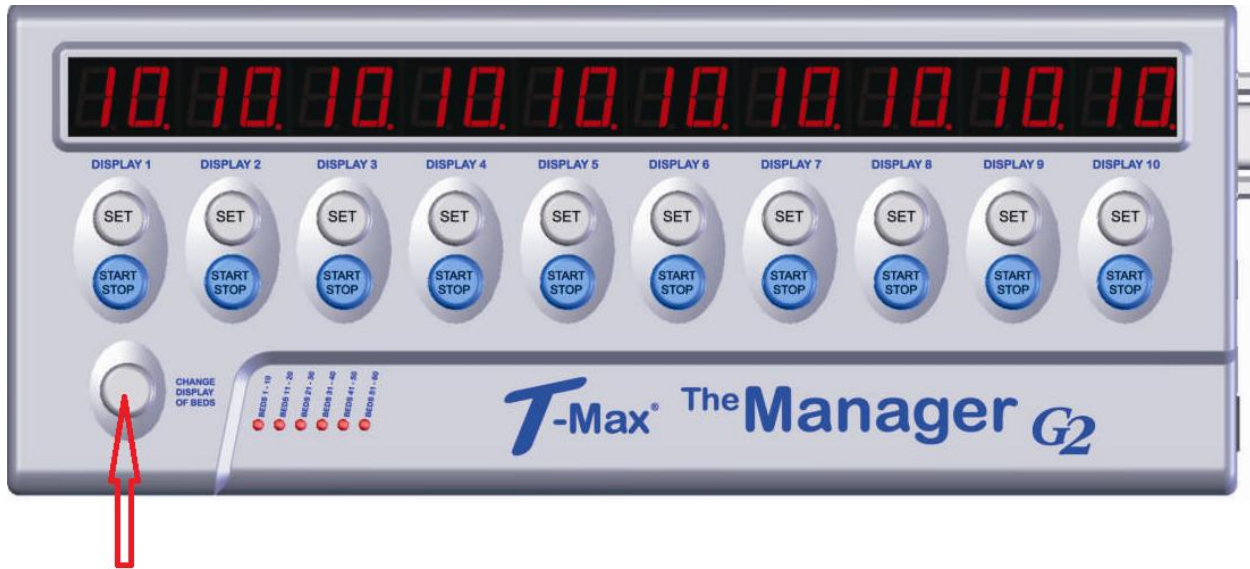

8. Set Display 6 with the SET button to a value of 6 for lamp hours.

9. Press the START/STOP button Display 6 and the lamp hours will now show in Display 7 and Display 8.

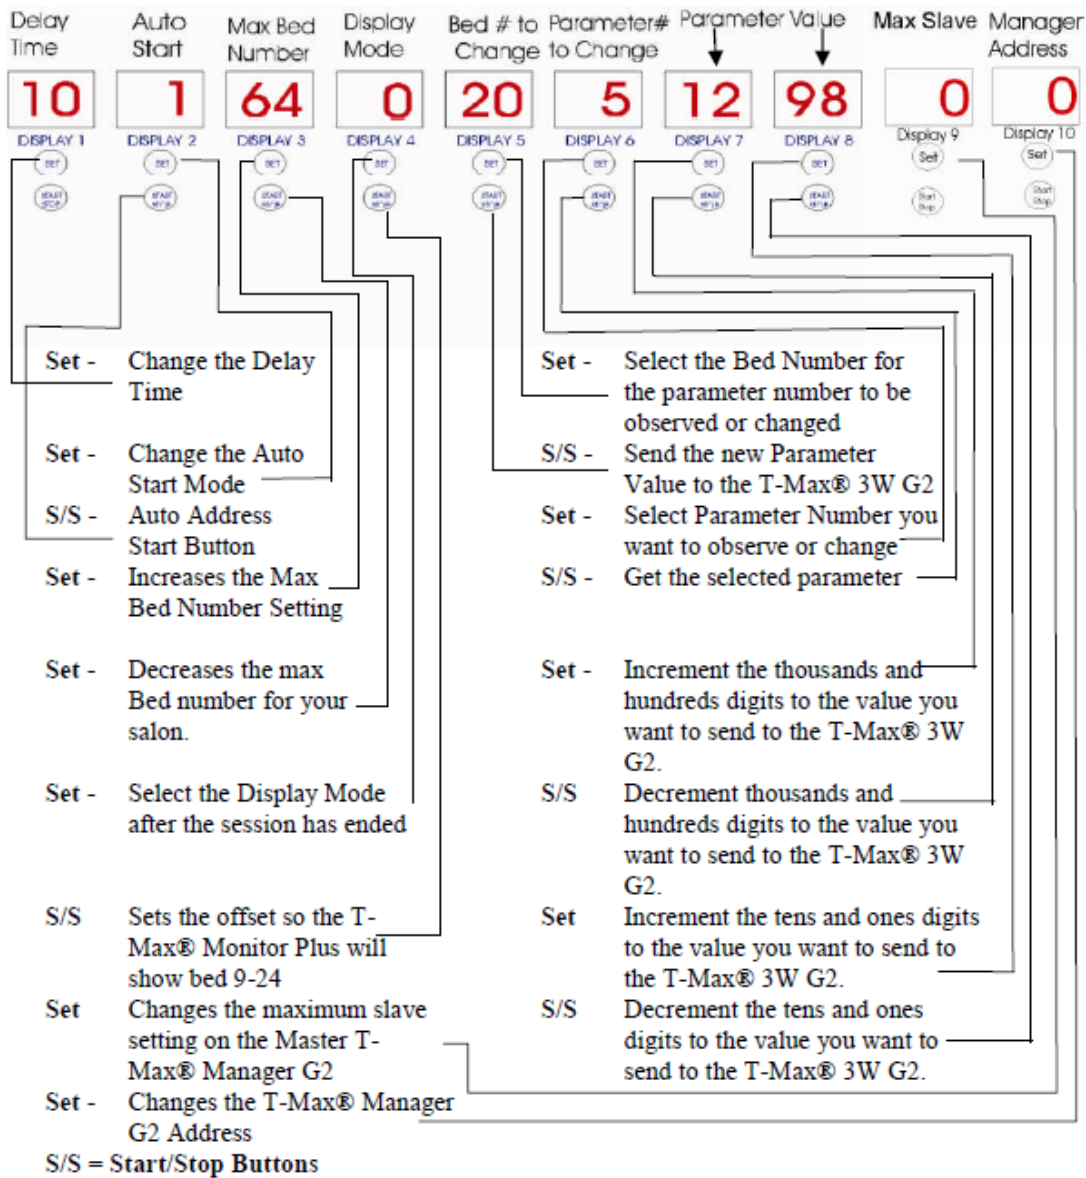

10. Put the four numbers together to read the lamp hours.

11. Press the “Change Display of Beds” to Exit.
